HLPOA JULY 16, 2026 MEMBERSHIP MEETING

The meeting was called to order by president Chris Pheiffer at 7:01 pm with 31 members signed in and 4 members logged in on our ZOOM.

All stood and the Pledge of Allegiance was recited.

Roll call was taken with 4 board members present. Eric Griffin was traveling.

The minutes from the April 2026 quarterly membership meeting as posted on NextDoor and printed in the May Beacon were approved with a motion by Chris H and a 2nd from Brad.

President's Report: Chris Pheiffer

Chris gave a maintenance department update on projects the maintenance crew has been handling, along with their regular summer "chores" mowing, weed eating, raking beaches, unclogging toilets and drains, etc. Broken boards on beach benches have been replaced, LakeFest preparations are gearing up! The Social Committee's vision of expanded WiFi over the entire beach area has been brought to life as Josh and crew have recently rewired and installed expanders in the lodge, Brass and maintenance shed at north end of the beach. The software has been installed and we will have a guest network and password for our members to use to get WiFi while at the lodge or on the main beach.

Chris also announced that we are in process of creating a maintenance request form. This form will be available on our website or in the office. A request for a maintenance issue can be addressed by filling out this form. The board along with Josh will evaluate the request and if it is something the association needs to take care of, we will have the request addressed.

The S5SD recently held a session with lawyers from Albers & Albers present along with notaries and engineers to allow members to have a platform to have questions answered and easements notarized and filed. There will be another session on August 16 for the same purpose.

Terry C 705 Asked wanted to know when we gave the sewer district the right for permanent access to our properties?

Kelly G 750 Added to Terry C's question that on Aug 2025 sewer meeting Tom Secor mentioned that this was what would happen. That the sewer district would require access to the grinder pumps for install and any necessary maintenance to the grinder pump. (The Southern 5 Sewer District (S5SD) holds easement rights to install, operate, access, and maintain essential wastewater infrastructure like force mains and grinder pumps across private properties. These legal rights are necessary because utility districts require continuous, lawful access to service and repair public sanitation systems efficiently without owning the land outright.)

Jane N 1280 Mentioned asking same questions to lawyers at the easement session and surmised that the wording on the easement contracts was basically "lawyer talk."

President's Report cont.

Am M 1001 Wondered why the rush for signing? Stating that they received their easement papers and that they were due back within a very short time frame. Chris stated Tom Secor mentioned that he was unsure why the "deadline" was put in the easement letters, stating there was plenty of time for members to ask questions to understand the S5SD easement paperwork before filing.

Henry J 1301 Asked if there were attorneys present at the easement signings. YES

Pat K 188 Agreed that the deadline date for signing and returning the easement paperwork was a mix-up in the letter.

Vice President's Report: Eric Griffin

None

Treasurer's Report: Brad Nelson

Brad summarized that he has been "on the job" for 3 months now and is working hard learning our SAGE System and our "accounting/posting ways." He has met with our CPA and numerous times with our bank. He has made progress with our bank, PNC in that we have now instituted a debit block, received updated credit cards, and have increased our interest rate on our savings account by 1.4%. He is getting a good grasp on our current financial situation. His main focus going forward will be to figure out and manage all our normal operating expenses and figure out the pending/upcoming project costs. He will then delve into the financing end and focus on how to fund these upcoming "high dollar" expenses.

Secretary's Report: Lynda Snyder

Lynda talked about the Social Committee's recent July 4th breakfast success and the joy in having a few new volunteers to help out! Volunteers are the heart of any organization and getting new help with events is always a plus. The pancake breakfasts only require 2-4 hours of commitment to our community, and it's a great way to visit and meet your neighbors! Next breakfast will be Labor Day Saturday September 5 followed by our Veteran's Day Boat Parade immediately following the breakfast and our annual Duck Race the following Day.

LakeFest is first and foremost on all our minds. Our small but dedicated committee has been meeting at least monthly since February planning a backyard picnic themed family focused event celebrating our nation's 250th birthday. This year's event will see some changes, the main being that Uncle Dudley's will be serving our main meal. Our small but mighty committee determined the only way to "make it through" LakeFest this year was to take our most labor intense events and change them up and to ask for help from our membership. Our creative mastermind, Josh has the venue décor planned out and that truly sets the mood for our entire event. We could not put on the event that we do without Josh and his hard-working crew! LakeFest will be AMAZING, just pray for good weather

Director's Report: Chris Hassmann

Chris gave a brief update from the Lake Sustainability Committee. He plans to set up another committee meeting very soon to continue going over the Osborn Engineering proposal for the cement spillway repair. He has reached back out to Osborn Engineering with more specific questions and details from their final report. It seems the main engineer on our project is currently on vacation, thus delaying Chris's ability to set up a meeting for another couple of weeks.

Chris then mentioned the lake water testing, stating that Joel Buurma used to test our lake water in conjunction with testing at the farms. Josh will take over the testing and test at beaches every 4-6 weeks. Samples were taken at both beaches on July 8 and dropped at the labs that same day. The water is tested for coliform and E Coli bacteria. The samples are collected and dropped at the lab the same day with results coming in several days later. At this testing time (just after a couple days of high temperatures and significant rains/surface run off,) our water testing levels were a bit elevated but still considered safe by the State of Ohio recreational water level recommendations. In the state of Ohio, safe recreational lake water limits for *E. coli* are set at a single-sample maximum threshold of **235 colony-forming units (CFU) per 100 mL**. The coliform levels were a bit elevated at both beaches... E Coli at East Beach was 138CFU and 32CFU at the Main Beach.

Chris then revisited the Osborn Report giving an idea of repair numbers that have been suggested. We are looking at about a \$700,000.00 repair bill including the structural repair components, engineering and labor costs as listed as Phase 1.

Phase 2 would include upgrading the gate. This repair will be a significant amount of capital monies spent to fix the spillway, but it is vital for the overall health of our lake.

Bill G 820 Stated the spillway work needs to be done. He cited the example of Buckeye Lake and them waiting too long. He also asked that the study be broken down by highest need priority, and on down with an ongoing maintenance program outlined.

Jane N 1280 Asked did the estimate include the cost of Osborn managing the project? \$645,000 are the repair costs with \$43,000 the engineering costs.

Tom P 748 Asked if dredging costs have been addressed as they were told Cardinal Cove was to be dredged years ago. We recently received 1 very rough and quick estimate of just the small Cardinal Cove dredging area and it was around \$100,000. After the bathymetric survey last fall, the coves were definitely the shallowest areas on the lake. As the committee begins to prepare a dredging plan, they need to prioritize dredging areas (already started), figure out funding, find firm for procedure of bringing in equipment and crew, figure out where dredged material will go etc., etc. A dredging plan IS in the works.

Linda P 748 reiterated that Cardinal Cove is the worst and it is 11" deep at their dock.

Director's Report cont.

Chris then added that when we do get to the dredging actually happening, shoreline protection will need to be put in place on all lakefront areas to help curtail the influx of sediment coming back into the lake. Another financial issue with that is HLPOA owns A LOT of shoreline. For the association to protect all that shoreline will also be a significant cost. The question then becomes to rip rap then dredge or dredge then rip rap? There are advantages/disadvantages to both and there are also other ways to protect shorelines. This is another area of concern that the Lake Sustainability Committee will be looking into. This committee will do the research and then bring recommendations to the board, and work with the board to come up with the best solutions on both the spillway repair and dredging. Neither will be a quick process, but they are BOTH VITAL.

Bill G 820 Added many lakes require lakefront owners to have shoreline protection in place.

OLD BUSINESS:

The stumps on the association owned lots on Holiday Drive near Timothy Dr. have been ground out.

NEW BUSINESS:

Renee will be out of the office for her vacation August 10-18. The office WILL BE CLOSED. Phone calls will be somewhat monitored as will emails, but if there is an immediate concern, please call a director.

As everyone is aware, The Brass Pelican's lease is up Dec. 21, 2026. By their own choice, they have decided NOT to renew this lease. WE have been aware of this for months and have been actively engaged in finding our next restaurant partner. 6 entities expressed interest early on. 5 RFP's were returned to us as potential candidates. Each director studied the RFP's and ranked their choices, as we intended to interview the top 3 potential restaurant partners, based on what our membership survey requested and how the RFP's were written.

Those top 3 survey requirements were:

- Quality of service and product
- Cleanliness
- Affordability

There was a clear-cut winner in all our minds and we are proud to announce that Freddie Flores will open the next restaurant in our lodge.

We have a "gentleman's" agreement and a handshake with Freddie now, and will be using a real estate lawyer to write up a lease and firm up all details. There is a lot to figure out with monthly lease amount, remodeling, length of downtime for transition, liquor license transfer etc., etc. This negotiation process will take several weeks/months as there are a lot of details to work out. We are truly excited to have Freddie on board!

NEW BUSINESS cont.

Bill G 820 Will there be a similar type menu? That has not been finalized yet, but we anticipate something similar. He will not have the same food at both his venues. They will be 2 separate restaurants.

Anne C 705 Will the restaurant be family friendly? Yes, but remember it is also a bar.

Jeff H 912 Can you add on to the kitchen? Not without huge costs.

Barb H 912 Will the .50 charge stay on the tab? We as a board are looking to get to a certain revenue from the restaurant. However the restaurant chooses to get to that point is up to them. They can build it in the cost of their menu, pay it in their lease, whatever they choose. But know, that lake fee generates about \$10,000 a year for the association.

Chris P then asked how many in attendance read NextDoor or the Beacon. A show of hands indicated that most do and are involved and "in the know" of what is happening at the lake. So basically, we are "preaching to the choir" concerning the next written in new business topic.

Eddie A 1334 Is concerned about water safety on the lake. Very concerned about a close call over the July 4 weekend with backing his pontoon out of his dock when a jet ski came right up on him not 20' off the back of his boat. Citing irresponsible and unappreciative boat operators, he is asking that we look into "hiring a water officer during major holidays because it's truly out of control FYI."

On this NextDoor post Mike Ruggles made an excellent response which is copied here:

This comes up every few years, with boaters seeing reckless operators on our great lake. It's usually a guest who is totally inexperienced in boating. First, the Huron County Sheriff Department has jurisdiction here, but no watercraft to patrol. ODNR also has jurisdiction, but they have all they can handle patrolling Lake Erie. A few years back, ODNR would send a boat out occasionally, and made a few stops and arrests, but this was met with displeasure from residents. For example, if they stopped a boater for a possible operating while intoxicated, they had to take the person to Willard PD for an Intoxilizer test, and they were then off the water for hours. ODNR quickly determined that patrolling here wasn't efficient. I believe 'hiring a water officer' would be like trying to hire the Ohio State Highway Patrol to be on our roads (on which they don't have authority). We hired Huron County Sheriff Department deputies a few years back, but I don't believe anyone saw a marked difference. I honestly think there isn't a clear answer to boaters who make things dangerous here. In my experience, it's going to happen, no matter what. We can only hope residents impress the rules upon their family and visitors, and hope for the best.

We as a board have looked into hiring a security firm to patrol the lake on busy weekends. Chris H may have a lead on someone through his job and he will reach out. We have tried volunteers and we as directors have approached people to diplomatically educate them on things they may not be aware of.... And most of the time people are responsive, but we have also had people ignore

NEW BUSINESS cont.

us, yell at us, tell us to mind our own business, or simply flip us off. SAFETY is our MAIN concern and should be that of ALL members. Our lake is not that big and on busy holidays or weekends just 1 or 2 doing the wrong thing could create a MAJOR problem or incident.

Henry J 1301 Offered to donated his 18' speedboat to the board if we could find someone to patrol the lake. We appreciate this offed, but again there is a liability issue with who would be on "an association boat" and how are our rules enforced? The person patrolling would have to be aware not only of ODNR water rules but our HLPOA rules as well.

The "best" tool in our toolbox is our membership. Knowing and following the boating and swimming rules. Then the ability to snap a picture an identifying picture of a boat or swimmer not following the rules. FILING a written complaint with the office (these complaints are kept ANNONYMOUS) so that we can address the problem with the appropriate warning letter or fine as determined by our rules and regulations. That's the bottom line. Our rules do have "teeth" if we follow the proper channels.

Jim K 331 Asked if the Willard Police or the HCS office has a citizen's police program that we may utilize some of the "officers" for.

Peg J 1301 Asked if it was allowable or permitted to float a boat lift to another location on the lake? Yes, lift owners in question had made the office aware and in fact had the proper permits to install lift at new location.

Rose Ann V 943 Is there a fine limit? Meaning can fines keep adding up. It is a case-by-case scenario, and dependent on what the fines are for. Our rules and regs state some unpaid fines keep accruing. Water fines typically don't accrue, but there have been occasions where certain members have amassed too many fines and been told any more and they would be banned from the lake.

Jeff H 912 Asked what authority would a hired lake security firm have? They would have the authority only to report wrongdoing to the board.

Bill G 820 From his vantage point sees it all the time and is FRUSTRATED at the lack of following rules.

Remember when members buy their stickers, they are signing an attestation that they are aware, know and will follow our HLPOA boating and swimming rules.

Jim K 331 Stated education is the key. It is, but we have tried to set up boater courses, ODNR courses, people just don't attend.

Beth G 820 suggested larger stickers so the numbers are easier to read or fluorescent stickers. (Which we did have a few years ago, but the sun faded them super-fast.)

Debbie B 1324 Asked about the proposed wake boat surf rule setting the area from the dam to the beach as the ONLY wake surf area. A resolution was drafted, but we are still assessing

NEW BUSINESS cont.

the idea of putting it as a rule as typically it's only 1 or 2 members surfing in the wrong areas (which aren't even good surfing areas.) We will continue discussion on this.

Debbie B 1324 Also questioned the new rule going into effect next year for the buoy placement no further than 18' from shoreline. She stated their pontoon extends beyond their 1' allowable dock so the buoy wouldn't even set out far enough for that. We will continue to look into this before next year too.

Anne C 705 Asked what happened to the association's old security boat from around 2006-2007? We are assuming it was sold as none of us were involved back then.

Pat Ksent in a concern about the uneven and very rough area of the golf cart path from Lake Holiday Lane to the Twin Bay Trail/disc golf area.

That was the first part of the golf cart path put in and too large stone was used. It is on the "docket" to be dug out and re-rocked with the smaller stone to even it out better.

Kevin V 916 Sent in 3 questions on the new restaurant partner which were all addressed under new business.

Kevin V 916 also sent in several questions pertaining to right of ways and vegetation along our roadways. Basically, your property is your responsibility. The association has easements 10' from the road and 5' on either side of the property lines. The association is responsible for our commonly owned HLPOA roads, green area grass, ditch lines, trees etc. Our policy has been that we occasionally step in when home/lot owner fails to comply or keep their property up to our standards. The charge for this is then billed back to said property owner.

Henry J 1301 Complimented Josh and all who generously donated to the Kay Hartz memorial bench (built and engraved by Josh) and flower pots just outside the lodge main entrance.

The following 11 new members were approved with a motion from Chis H and a 2nd from Lynda.

William & Summer Andrews III
Jacob & Anna Brown
Derek & Angela Graziosi
Brian & Rachel Preston
Maddie Secor
Brandon & Kayla Wilson

Sherri Arteburn
Rose Cok
Derek & Kimber Lawrence
Christopher & Kathleen Rothhaar
Lee & Angela Williams

Adjournment

Respectfully submitted by,
Lynda Snyder, HLPOA Secretary.

Budget approved by board at 1/8/26 Budget Meeting

RED, WHITE and BLESSED **LAKEFEST 2026**

was a HUGE success,

and definitely 1 for the books!!

We were truly blessed with PERFECT weather, HUGE community turnout-outs - BOTH days, DELICIOUS food, great MUSIC, and wonderful SUPPORT from our generous SPONSORS and VOLUNTEERS!

We cannot THANK Josh and his crew of Kyle, Mason, Trey and Braylon enough for all they did to set up the amazing venue and keep everything running smoothly throughout both days! I know they've were on site early Sunday morning cleaning everything up.

Renée was an amazing asset as well, helping each committee along the way, being "on call" both days and putting out a beautiful LakeFest Beacon, full of all the necessary details and keeping members informed.

We are so BLESSED with such a DEDICATED, TALENTED and HARD-WORKING staff!

Our small LakeFest committee faced several challenges while planning this event, causing some changes in the "normal LakeFest routine" this year. EVERYTHING worked out GREAT, and the committee even got to experience parts of LakeFest they've never had the chance to see!

THANK YOU

I want to personally thank THIS Lake Fest committee who chose this theme last fall and began earnestly working on this year's event in February. We met monthly, and even twice a month in June working out all the details and putting plans in place to make LakeFest 2026 the best ever! THIS EVENT WOULD NOT HAPPEN WITHOUT THIS SMALL BUT MIGHTY CORE OF VOLUNTEERS!! (We never got a picture this year.)

2026 LAKEFEST COMMITTEE

Kelley Green - sponsorships, design (logo, banners) T-shirts, Ruth Duryea T-shirts, Barb Harper - Food coordinator (both days), Jane Nelson - golf cart parade, Cindy Johnson - golf cart parade, RoseAnn Vondrasek- 50/50 Raffle, Joe Wiles - 5K, Val and Gerald Gibson - Fishing Derby, Jeanne Black & Nikki Orlett - Sand Dig & Sand Castles, Val Gibson – Bingo, Joe Vondrasek, Jeff Harper, Greg Smith - boat parking and pulling

These are the "events" each headed up, but EVERYONE always helps out with ideas and actual hands-on help to assist each other!!!!

RED, WHITE and BLESSED

LAKEFEST 2026

We had some GREAT additional help this year too!!! Crystal Escalera stepped in and sorted race T-shirts and medals and also ran the registration table for the 5K. Chaz was back. He and his dad generously provided and cooked the Italian Sausages plus fixins Friday night! Chaz (the Eagle) also called our BINGO event with Val on Saturday! Angie Heacock generously donated her Friday evening to manning the Welcome Committee Raffle Basket ticket sales table! Felecia and Gene Shaffer also stepped up to help with T-shirt sales and the Welcome Committee Basket Raffle ticket sales! Donnie Buss and his beautiful vintage Lyman once again lead our boat parade!

Looking forward to LakeFest 2027.

Stay tuned for dates (typically 4th weekend in July) and theme!!!

THANK YOU

RED, WHITE and BLESSED

LAKEFEST 2026

ALLY TITLE AGENCY

250 yrs of American spirit-Unalienable Rights

The advertisement features a central white box with a gold border containing the Ally Title Agency logo, which consists of a stylized gold outline of a city skyline. The background is a patriotic collage with an American flag on the left, the Statue of Liberty on the right, and fireworks in the upper right corner. A small circular logo with the letters 'HIA' is in the bottom left corner.

BMB
Masonry & Concrete LLC

419.541.0232 | bmbmasonryandconcrete@gmail.com

250 yrs of American spirit- We hold these Truths

The advertisement features a central image of a red and white Mack dump truck. Above the truck is a large bald eagle with its wings spread, set against a background of fireworks and an American flag. To the left of the truck is a scroll with text. To the right is a trowel and some bricks. The BMB logo is prominently displayed in the center-right. The bottom of the ad includes contact information and a patriotic banner.

The advertisement for Varsity Club Sports Bar & Grill features a central graphic with a large maroon 'W' logo. Below the logo, the text 'VARSITY CLUB' is written in a bold, maroon, outlined font, followed by 'SPORTS BAR & GRILL' in a smaller, white font with a maroon outline. The background of the graphic shows a football field at night with stadium lights and a crowd. A football is on the left and a basketball is on the right. Below the main text, a banner reads '★ GAME DAY STARTS HERE ★' and another banner below that reads 'GOOD FOOD ★ COLD DRINKS ★ GREAT PEOPLE'. The entire graphic is set against a background of a US flag and a document with cursive text. On the left, there is a silver pole with a flag and a small circular logo that says '1776 2036 FOUNDING FATHER LAKEFEST'. At the bottom, a banner reads '250 yrs of American spirit-Independence'.

1041 S. Myrtle Ave., Willard, OH 44890

**SOUTHERN 5 SEWER DISTRICT HOLIDAY LAKES SEWER PROJECT
NOTIFICATION TO HOLIDAY LAKES RESIDENTS**

1. Thanks to all the members that have signed and returned the grinder pump easements relating to the Southern 5 Sewer District's Holiday Lakes Sewer Project. We appreciate you taking the time to do so.
2. Thanks also to all the members that attended the July 15, 2026 meeting for the grinder pump easements. Some of you had very short notice about the meeting date and we appreciate your attendance.
3. The District must receive a grinder pump easement before it can install the grinder pump and grinder pump line on each owner's property. **The District will not be able to connect your property to the Project without this easement.**
4. If you have not received a grinder pump easement for your property and have a house to be connected, please email John Hopfinger at john.hopfinger@alberslaw.com. Please let John know in your email why you believe you should have received a grinder pump easement and that you have not received one. If you do not have a house, you do not need a grinder pump easement. If you are to receive an easement, John will make arrangements with you to make sure you receive one.
5. For those that have not signed a grinder pump easement, another meeting is scheduled for Sunday, August 16, 2026. The District is having a Sunday meeting to make it as convenient as possible for those that work through the week, or those that live out of town and go to Holiday Lakes on the weekends, to attend the meeting and have the opportunity to ask questions or provide comments.
6. ***If you are prepared to sign your easement, you do not have to attend the August 16 meeting. You may sign and return your notarized signature to Albers and Albers at the address indicated in your easement packet. If you do not have access to a notary public, please call Renee at the Holiday Lakes POA office at (419) 935-0238 or email holidaylakesohio@gmail.com to schedule a date and time to stop by the HLPOA office and sign your easement. Renee is a notary public and will notarize your signature. The easement must be signed in front of Renee, so if more than one person owns the property, all individuals that own the property will have to sign in front of Renee at the office. Renee is making appointments for this purpose.***
7. The July 15th meeting was so well attended that at times there was often a lengthy wait before a District representative could meet with property owners. To avoid a wait at the August 16 meeting, if you have an issue with the location of your grinder pump line or grinder pump, please mark your desired location on the map attached as Exhibit B to your easement and email it to John Hopfinger at john.hopfinger@alberslaw.com. You may also scan or take a picture of the marked up Exhibit B and email to John Hopfinger. Please provide an explanation of why you would like a relocation of grinder pump facilities. If the relocation does not present any engineering issues, your request is likely to be granted. You may also email John if you have any questions about the easement language.
8. You are welcome to wait until the August 16th meeting to have your easement notarized or discuss any issues with your easement with a District representative. District representatives, engineers, and attorneys will be available to answer your questions. A cut-a-way grinder pump will be displayed at the Aug 16th meeting and you can receive an explanation of how grinder pumps work at that meeting.

Quarterly Membership Meeting Schedule for 2026

Holiday Lakes Property Owner's Association quarterly Membership Meetings are designed to foster more meaningful communication about lake business, community events, and ongoing projects — while respecting everyone's time and availability.

1 Quarterly Meeting Schedule: remaining 2026 Membership Meetings : **October 15**

Our **Annual Membership Meeting** will remain the 1st Sunday in May.

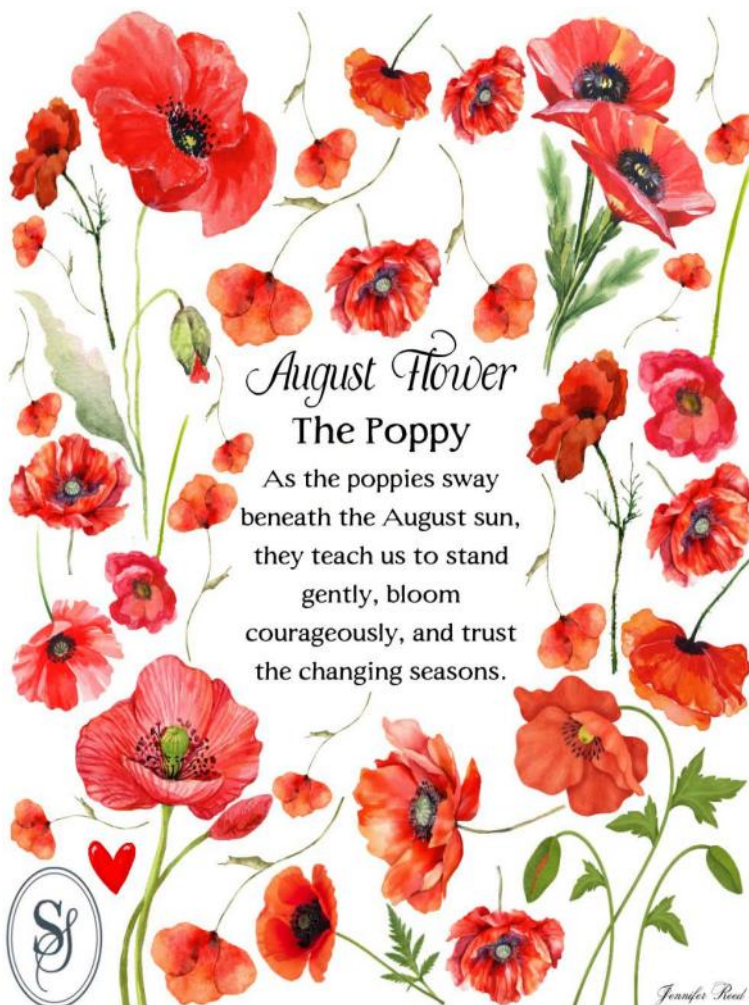

A Fresh Format for Better Engagement: Alongside the new schedule, we're introducing an updated meeting format that puts **member input front and center**. Each quarterly meeting will include **Community Agenda Items**, giving members a chance to shape the conversation and raise topics that matter most.

We believe this new approach will strengthen collaboration, improve transparency, and make our meetings more impactful for everyone involved. Thank you for being an active part of the Holiday Lakes community — we look forward to this next chapter with you!

Please submit agenda items by contacting the office at least one week before the meeting.

Additionally, you can now join our Membership meetings remotely, via Zoom!

(Links will be emailed each Quarter, allowing you to join).

**Lake Fest Comm Mtg: 6:30pm
AUG 26TH**

Social Comm Mtg: 7:30pm

All of Holiday Lakes events are planned by two committees; Lake Fest & Social Committee. Every year they gather once a month to plan and execute the Pancake Breakfasts, Poker Runs, Lake Fest, Duck Race as well as each Holiday Event. If you would like to be a part of each one of these events, whether it be planning or helping, please join us at the lodge. These events are not only a great way to meet other members but it's always a great way to get involved in your community.

We ask you to join us the 2nd Wednesday of every month

6:30 pm for the Lake Fest planning meeting;

7:30 pm for the Social Committee planning meeting.

Those Black Streaks Are Eating Your Roof.

Those black streaks, green patches, and fuzzy moss aren't just ugly—they are active, living organisms eating away at your shingles. Mold, mildew, and moss trap moisture, causing premature shingle deterioration, wood rot, and leaks.

Mahl Home Shield gives your roof its integrity back.

Our Specialized Services

Soft Wash Roof Cleaning: No high pressure! We use specialized, low-pressure soft washing techniques to safely destroy mold, algae, and moss.

Moss & Mildew Attack: We eliminate the roots of moss, preventing them from curling up your shingles and causing further damage.

Roof Protective Sealing: Our eco-friendly sealants create a breathable, invisible barrier that shields your roof from future organic growth, water damage, and UV rays—extending the life of your roof by **3–5 years on average.**

Curb Appeal Boost: Make your home look new again instantly.

Gutter Cleaning & Maintenance: We clear clogs, flush downspouts, and keep water flowing away from your home to prevent fascia, siding, and foundation damage.

Why Choose Us?

10+ Years of Hands-On Experience with Products

We have real, hands-on experience using professional-grade products and proven methods that deliver results you can trust.

100% Satisfaction Guaranteed

We stand behind our work and your peace of mind.

Professional, Insured, & Reliable

Fully insured for your protection. On-time, respectful, and detail-oriented every time.

Safe for Your Home & the Environment

Eco-friendly solutions that protect your roof, your family, and your property.

Know Before You Burn:

Ohio Open Burning Rules Protect Health and Safety

As summer and fall yard cleanup seasons approach, Holiday Lakes residents are reminded to follow Ohio's open burning regulations. Open burning, which includes any outdoor fire without a chimney or stack, can release harmful pollutants into the air and create health, safety, and environmental concerns.

According to the Ohio EPA, certain materials may **never** be burned anywhere in the state. These include household garbage, tires, plastics, petroleum-based materials, rubber products, and dead animals. Burning these materials releases toxic chemicals that can contribute to respiratory illnesses, asthma, and other health problems.

For residents outside city limits, Ohio law generally allows the burning of natural yard waste such as leaves, brush, tree trimmings, grass, and shrubbery generated on the property. However, larger burns and certain types of fires may require permits from the Ohio EPA. Fires must not create visibility hazards for road traffic and are prohibited during air pollution alerts or emergency conditions.

Recreational fires, cookouts, and campfires are permitted in open areas with no restrictions on wood and limited to a wood stack no larger than 4 feet high. This restriction applies both inside and outside restricted areas.

The Ohio EPA encourages residents to consider alternatives to burning, including composting yard waste, recycling, and utilizing local waste collection services. These options help reduce air pollution while creating healthier neighborhoods for everyone.

Before lighting any outdoor fire, residents should make sure they understand state and local requirements. More information is available at epa.ohio.gov/openburning.
